

I claim:

1. A method of playing a tossing game, comprising the steps of:

providing at least two tossing discs and a target disc;
providing a portable play surface;
filling said portable play surface with a quantity of sand;
and
defining a boundary for players to toss said at least two
tossing discs from.

2. The method of playing a tossing game of claim 1, further
comprising the step of:

providing a retaining wire having a U-shape, said retaining
wire holding said at least two tossing discs and said target disc.

3. The method of playing a tossing game of claim 2, further
comprising the step of:

manipulating the wire legs of said retaining wire to measure,
which tossing disc is closest to said target disc.

4. The method of playing a tossing game of claim 1, further
comprising the step of:

elevating said portable play surface above the ground.

5. The method of playing a tossing game of claim 1, further comprising the step of:

providing a disc retrieval wand for retrieving at least one of said discs.

6. The method of playing a tossing game of claim 1, further comprising the step of:

providing said disc retrieval wand with a rod, a scoop and a magnetic ring, securing said scoop to substantially one end of said rod, turning up the other end of said rod, placing said magnetic ring behind the other end of said rod, picking-up at least one of said discs with said magnetic ring.

7. The method of playing a tossing game of claim 1, further comprising the step of:

providing said at least two tossing discs with at least two different colors, said target disc having a different color than said at least two tossing discs.

8. The method of playing a tossing game of claim 1, further comprising the step of:

providing said at least two tossing discs with a greater diameter, but smaller thickness than said target disc.

9. The method of playing a tossing game of claim 1, further comprising the step of:

forming a wall around a perimeter of said portable play surface.

10. A method of playing a tossing game, comprising the steps of:

providing at least two tossing discs and a target disc;
providing a portable play surface;
elevating said portable play surface above the ground; and
defining a boundary for players to toss said at least two tossing discs from.

11. The method of playing a tossing game of claim 10, further comprising the step of:

providing a retaining wire having a U-shape, said retaining wire holding said at least two tossing discs and said target disc.

12. The method of playing a tossing game of claim 10, further comprising the step of:

forming a wall around a perimeter of said portable play surface.

13. The method of playing a tossing game of claim 10, further comprising the step of:

filling said portable play surface with a quantity of sand.

14. The method of playing a tossing game of claim 10, further comprising the step of:

providing a disc retrieval wand for retrieving at least one of said discs.

15. The method of playing a tossing game of claim 14, further comprising the step of:

providing said disc retrieval wand with a rod, a scoop and a magnetic ring, securing said scoop to substantially one end of said rod, turning up the other end of said rod, placing said magnetic ring behind the other end of said rod, picking-up at least one of said discs with said magnetic ring.

16. A method of playing a tossing game, comprising the steps of:

providing at least two tossing discs and a target disc;

providing a portable play surface;

providing a disc retrieval wand for retrieving at least one of said discs; and

defining a boundary for players to toss said at least two tossing discs from.

17. The method of playing a tossing game of claim 16, further comprising the step of:

filling said portable play surface with a quantity of sand.

18. The method of playing a tossing game of claim 16, further comprising the step of:

elevating said portable play surface above the ground.

19. The method of playing a tossing game of claim 16, further comprising the step of:

providing a retaining wire having a U-shape, said retaining wire holding said at least two tossing discs and said target disc;

20. The method of playing a tossing game of claim 16, further comprising the step of:

providing said disc retrieval want with a rod, a scoop and a magnetic ring, securing said scoop to substantially one end of said rod, turning up the other end of said rod, placing said magnetic ring behind the other end of said rod, picking-up at least one of said discs with said magnetic ring.
